SUMMARY

I am a results-driven security engineer with a strong focus on penetration testing, application security, and threat hunting. With over two years of experience, I have successfully addressed cybersecurity challenges across the Finance, Manufacturing, and Education sectors, working to detect and mitigate threats.

🏅 Offensive Security Certified Professional (OSCP), CompTIA Security+, eJPT

🎓 Master of Science in Cybersecurity

PROFESSIONAL EXPERIENCE

Citizens Bank, *Providence, RI, USA* May 2023 – October 2023

Senior Cyber Threat Defense Operations Specialist

- Analyzing logs in **Splunk** SIEM**,** including dashboarding, event triage, and incident analysis.
- Conducting Endpoint Detection and Response, security event investigation with **CrowdStrike.**
- Investigating email & web security events for DLP, tuning down 40% of Data Loss Prevention alerts.
- Utilizing **AWS** Cloud products such as GuardDuty, CloudTrail, CloudWatch and VPC Flow logs for security alerts.
- Proactive monitoring of systems, applications, and networks to implement blocks for malicious threat sources.
- Reviewing phishing emails, performing static malware analysis on email attachments to block IP and domains.
- Tools: AWS, Splunk, CrowdStrike, Netskope, ThreatStream, Archer GRC, Qualys, Cisco Firepower, Symantec EP, Forcepoint, ServiceNow, JIRA, Confluence, FireEye, Infoblox, ExtraHop, Luna, MVISION Cloud, GuardDuty.

Northeastern University - Information Technology Services**,** *Boston, USA* September 2022 - December 2022

Security Engineer

- Developed and implemented web application scanner using open-source tools to identify and report OWASP Top 10 vulnerabilities in web servers.
- Implemented Agile methodologies and CI/CD pipelines with Jenkins to enhance vulnerability detection accuracy and improve scanning capabilities.
- Implemented Agile methodologies with control server and **Jenkins** for continuous integration and continuous deployment (CI/CD) to ensure tool accuracy and reliability in discovering vulnerabilities.
- Engineered script for efficient data parsing and utilizing KQL for Log Analytics on Azure Sentinel.
- Tools: Nikto, OWASP ZAP, Helios, TestSSL, Nuclei, Azure Sentinel, GitLab, Nessus, Burp Proxy.

Southworth International Group Inc.**,** *Portland, ME, USA* January 2022 - August 2022

Cybersecurity Analyst

- Led a comprehensive review of the organization's security policies and infrastructure – providing actionable insights, solutions, and advocating creation of PO&M and SSP to comply with CMMC 2.0 standards.
- Monitored user, file and device threats using Cisco Secure Endpoint to fortify organization's defense posture.
- Configured Graylog server for data aggregation & forwarding to AlienVault SIEM for threat detection and visibility.
- Deployed KnowBe4 modules for security awareness training, resulting in a strengthened cybersecurity culture.
- Identified critical Joomla CMS bug on company website, enabling prompt mitigation and prevention of PII.
- Tools: AlienVault, Cisco Meraki, Threat Grid, vSphere, Selenium, ELK stack, Microsoft 365 security, PDQDeploy.

HackersEra Cybersecurity Consultancy and Training, *Pune, India* June 2019 – December 2019

Cybersecurity Associate

- Identified and exploited various vulnerabilities through responsible disclosure on public platforms, including active participation in bug bounty hunting.
- Discovered and reported web parameter tampering bug on quickr.com, leading to prompt remediation.
- Proficient in manual pentesting and bug bounty hunting using Burp Suite, Metasploit, and others on Kali Linux.

EDUCATION

Master of Science in Computer Science and Information Security (Cybersecurity) December 2022
Northeastern University, *Boston, USA* GPA: 3.7

Bachelor of Engineering in Information Technology May 2020
Savitribai Phule Pune University, *Pune, India* GPA: 3.5

TECHNICAL SKILLS

Tools & Technologies	Docker, Jenkins, AWS, Jira, Wireshark, Elasticsearch, Snort, Qualys.
Languages	Python, Bash, PowerShell.
Certifications	OSCP, CompTIA Security+, eJPT
Operating Systems	Linux, Kali Linux, Ubuntu, Windows.
